AMENDMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Post Office Box 7068
Pasadena, CA 91109-7068
January 27, 2003

Commissioner:

In response to the Office action of October 25, 2002, please amend the above-identified application as follows.

In the Specification:

Please replace the paragraph beginning at page 7, line 24, with the following amended paragraph:

The irrigation probe comprises a metal ribbon electrode 47 at the distal end 48 of the non-conducting tube 40 comprising an exposed metallic ribbon 49 that is coiled around a loop of irrigation tubing 56, both of which are indirectly or directly fixedly attached to the distal end 48 of the non-conducting tube 40. As illustrated in FIG. 5, the probe's distal end 48 is generally solid, having a fluid passage 50, a first blind hole (not shown) and a second blind hole 54 that correspond in size and location to the three lumens 46, 42 and 44, respectively, in the non-conductive tubing 40. In the embodiment shown, the fluid passage 50 is in fluid communication with the inner cavity of the flexible irrigation tube
